

I listen to KLOVE radio at home,work and on the church vans when hauling people to and from. For a long time we couldn't get it here in Cheyenne and there wasn't a whole lot of good stuff on our radio. Now we get a good clear signal it would be a great loss if we lost it. I drive for a living and all around town I see bumper stickers on cars and truck for KLOVE. While driving my transit bus I get a lot of good comments and thanks for having it on. It kind of mellows out the people on the bus. I would like you to know that it would be a shame if for some reason you made it hard for stations like this to stay on the air. I am not only a listener but a financial support of KLOVE. I beleive that in the public interest america needs good clean radio stations, to remind us of what our country was founded on. I also like the fact that when I travel our country that I can pick-up the signal in other parts of the country. Thank you for your time and consideration on this matter.
